## BAKERY AND CONFECTIONARY PACKAGING

One of Europe's leading suppliers of flexible packaging materials for the Bakery and Confectionery Industry.

Speciality breads from Europe, the Middle East, India and Pakistan all require their own unique presentation. Crisp, nuts and 'adult' snacks all have different pack formats. We can provide the 'excellence in print' provided by state-of-the-art flexographic and rotogravure print presses.

### The product range includes:

- Mono-films, laminates and co-extrusions for freezing, microwaving and sterilizing
- 'Steriflex' and 'Flexovac' laminates in reels suitable for running on high speed form-fill-seal lines and Multivac type machinery
- Transparent, high barrier plastic films for gas-flushing offering extended shelf-life
- Stand-up pouches and bags
- Perforated films
- Printing in both flexo and gravure
- Films include low, medium and high density polyethylene, cast and biaxially oriented nylon, cast and oriented polyester, cast and oriented polypropylene. Barrier layers comprise of SIOX, ALOX and EVOH
- Lamination using both solvent-free and solvent based systems. Co-extrusions in up to 11 layers in gauges from 10 to 400 microns.
