## PETFOOD AND HORTICULTURAL PACKAGING

One of Europe's leading suppliers of flexible packaging materials for the Petfood and Horticultural Industry.

The packaging of products for the gardener has undergone a transformation - finally you can buy fertiliser in a bag that opens AND closes.

### The product range includes:

- Polyethylene based films and laminates
- High quality gravure and flexographic printing
- Stand-up pouches and sacks
- Foil laminates for 'Longlife' petfood in pouches
- Barrier laminates for special applications
- Films include low, medium and high density polyethylene, cast and biaxially oriented nylon, cast and oriented polyester, cast and oriented polypropylene. Barrier layers comprise of SIOX, ALOX and EVOH
- Lamination using both solvent-free and solvent based systems. Co-extrusions in up to 11 layers in gauges from 10 to 400 microns.
